Del Rio

Acceptability of the contrast in color between the integral detectable aggregate stripe and the precast tread is the responsibility of the buyer. For testing by others, a sample of the combination chosen can be provided upon request. All products are made of natural materials. Colors may vary. Always refer to actual color concrete samples before ordering. Visit [stepstoneinc.com](http://stepstoneinc.com) Stepread Color and Finish Chart to see full range of color and finish options.

Jobsite installation of Stepreads.
