French Gray

CR BS 501
Granada White

CR BS 510
Caramel

CR EA 501
Del Rio

Acceptability of the contrast in color between the integral detectable aggregate stripe and the precast tread is the responsibility of the buyer. For testing by others, a sample of the combination chosen can be provided upon request. All products are made of natural materials. Colors may vary. Always refer to actual color concrete samples before ordering. Visit stepstoneinc.com Stepread Color and Finish Chart to see full range of color and finish options.
